

Dear Friends,

Abortion is the sin which most calls down the wrath of God's Justice. The taking of innocent life, so defenseless in the sacred place of a mother's womb, says "No" to God and all His blessings in the most ungrateful way. And yet God has been patient with us as we struggle to change hearts and laws to protect His greatest gift to all: Life. And His Mercy is unimaginable as He calls all who have supported abortion or had an abortion to repentance so He can pour out His merciful love and healing upon them.

There is so much going on in the world today, isn't there? It seems like everyone is struggling with something big. It can be overwhelming. And we are seeing some unprecedented events. Like the new president of Planned Parenthood who finally admitted their "core mission is providing, protecting and expanding access to abortion and reproductive care (i.e. contraception)." There is no more important battle than eradicating abortion. All the other problems are a fruit of this great evil and a change of heart and law will bring torrents of grace and blessings we can't even imagine. Let us resolve to work, pray and sacrifice to end abortion as never before in 2019. Prayer can change the course of events, the course of people's thoughts and hearts, even the future of the world. So be encouraged and never, never, never give up!

We closed 2018 with our annual client Christmas parties where we get to see all the smiling Moms and babies whose gift of life was accepted with love and gratitude. I never get tired of looking at those happy faces and wondering what mission God has given to each of those irreplaceable, cutie pies! We are so grateful for your continued generous support of our work and pray God will provide for all your needs in the coming year. May the peace of Jesus Christ reign in your heart always.

In the Love of Jesus, Lord of Life, and Mary, Mother of All,
